

CAN YOU MAKE THINGS GROW?

Make building communities your day job...

Scouting in the UK has grown every year for the last 12 years. We offer skills for life and adventure to over 450,000 children and young people every week and our aim is to ensure that Scouting both reflects its local community and is able to offer a space for every single young person that wants to take part in the adventure!

We are a more vibrant and diverse movement than ever before, with nine million Muslim members worldwide and over a quarter of our members are girls. We work with a wide variety of people and communities including Sikh, Hindu, Roma and LGBTQ communities across the UK to bring Scouting to more and more young people. Our most recent impact report is clear that Scouting changes lives with 78% of scouts feeling a responsibility to help in their local communities and feeling they have the skills for life that offer them more opportunities than they would have if they were not Scouts.

Being open to everyone from any background, gender, sexuality and faith, as well as those who are not religious we are finding ourselves

more popular than ever before and have over 50,000 children and young people just waiting to join - and that's where you come in!

We currently have a job opportunity in the Newcastle area and are looking for the right person to join the team and help us continue

growing Scouting for young people in the North East, particularly in under represented communities. You will be working with an amazing group of volunteers to make sure that every young person in Newcastle who wants to be a Scout has that opportunity. Setting up new Groups, growing our existing sections and supporting adults to access and enjoy everything Scouting has to offer.
